The Archery GB Codes of Conduct exist to protect and promote the sport of archery and outlines the behaviour expected from all participants within the sport at every level.

As the National Governing Body, Archery GB is responsible for setting the standards and values that apply at every level. This Code encapsulates all the sporting, moral and ethical principles that archery represents. The code of conduct applies to all participants when they are taking part in or involved in the sport of archery whether in person or using online platforms (including messaging and social media). Participants include all members, those who support members (including parents/carers/spectators), coaches, officials, and volunteers. The code of conduct also applies to those associated with Archery GB and involved in archery while outside the UK.

Other codes may also apply, for example Archery GB elite archers team member agreements and Coaches/Judges Code. In those circumstances, this code of conduct will also apply.
